Dear Dairy,  

April 20, 2020

Because of the Coronavirus kids that were going to public schools are now being given a packet every 2 weeks so they can do school at home with their parents.

When we first heard that we were going to do this we were told that we were only going to be at home for 2 weeks. But then the Coronavirus got worse so then the Governor told us that we would have to stay home for another 2 weeks. We were about 3 weeks in since the last day of real school and the Governor gave an announcement that we would be homeschooled for the rest of the school year. I cried so much after that.

About a week after that my mom downloaded Messenger Kids. This app lets kids text and video chat with their friends. It has brought my friends and I together during this awful time. I have so many contacts of people I haven’t seen in a while.

Since I can go to my gymnastics gym to train I do Zoom meetings at 3:00 every weekday so my gymnastics team and I don’t get weak while we are in quarantine. We don’t do real gymnastics, we just stretch and do conditioning.
Then here comes the most upsetting part. It’s that we had to reschedule my 10th birthday party. My birthday party was going to be at Great Wolf Lodge and I was going to stay over night there with 5 of my friends. But then we had to reschedule it in September. But there was one good thing about that and it was that I get to have 3 birthday parties. The first one is on my birthday and we were going to a Zoom meeting but it is just for me to talk to my friends. After that we are going to do a Netflix party. The next party we are going to do is I am going to have a water slide in my front yard and I get to invite more people than just the people going to Great Wolf Lodge. And the last one is the Great Wolf Lodge birthday party.
