

Works that are lit during the media presentation.

Edward Valentine (1838-1930) sculpted the 84 works on this wall between the 1850s and the 1910s. He made almost all of them in Richmond and many in the studio building. Additional sculptures, tools, and archival materials are also in the museum's collection. Below is a map of the artworks with abbreviated titles and accession numbers for each piece.
